

Statistical Ecotoxicology

- Improving the utilization of data for ecological risk assessment

Eduard Szöcs

Institute for Environmental Sciences, University of Koblenz-Landau

Landau, 22.09.2016

My field of research is somewhere between...

... Eco(-toxico)logy, Data Analysis & Programming

Intro stats session

Past

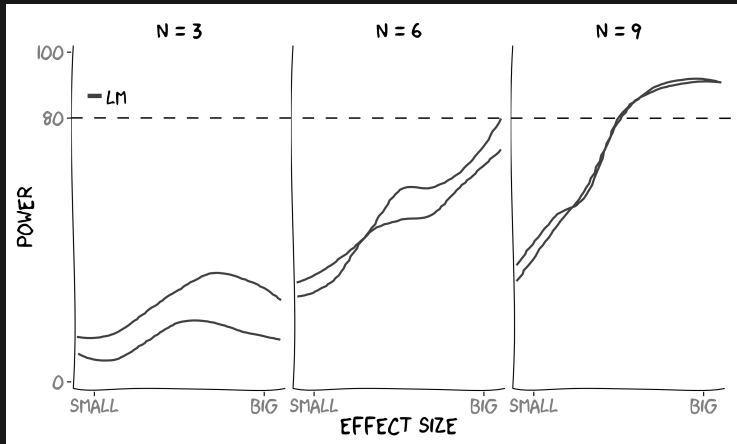

Present

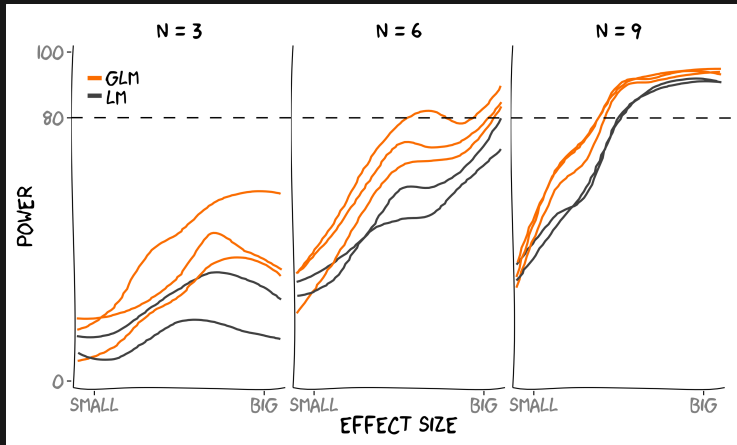

Future

Statistical Power in current experimental designs in ecotoxicology is unacceptably low

Generalized Linear Models can do it better

But maybe completely abandon NOEC and use a regression design?

Statistical Ecotoxicology

- Improving the utilization of data for ecological risk assessment
